- Low roaming and international long distance rates for other regions
- Free incoming 35-character Short Messaging Service
- For quality of service maps and updates, see globalstarusa.com

Globalstar is the only mobile satellite operator launching spare satellites for our existing network, and building a new generation satellite constellation, scheduled to begin deployment in 2009. With the successful launch of eight spare satellites scheduled for this year, along with our existing satellite network, Globalstar will continue to provide and support two-way voice and data satellite services to our customers through the launch of the second-generation constellation. However, there may be significant gaps in satellite availability depending on where you are and when you attempt to place a call. These gaps will likely become progressively more frequent and longer in 2008 and 2009, as we transition to our new network. Sign up now and get a bonus year of unlimited service for only \$19.99/month for one full year after Second Generation network launch.

Legal Terms: Plans are based on a contract through June 30, 2010. Credit approval required. Early deactivation will result in a cancellation fee. Cancellation fee based on calendar year; \$750 if cancelled in 2007; \$500 if cancelled in 2008, \$250 if cancelled in 2009 or 2010. The plan is not designed for always-on data communications. Globalstar reserves the right to terminate service of a customer, or amend the plan to prevent abuse of data connectivity. For roaming rates, please consult the roaming calculator at www.globalstar.com. Included minutes do not apply while roaming. International roaming and long distance charges may vary depending on foreign taxes and tariffs from individual countries. Please see End User Terms and Conditions for all details concerning subscription to the Globalstar system. All price plans are subject to all U.S. local, provincial and federal taxes.
