

# THE DELTA WAVE FIXED INDUSTRIAL PACKAGE

Deltawave Number: ST-2900FIP-55

**This Turnkey Package Includes Everything For Quick and Easy Deployment For Fixed Or Portable Applications. The rugged ST-2900FIP Fixed Industrial Package takes the hassle out of installations.**

## Product Description

The ST2900FIP was designed for quick and easy deployment. It is a turnkey package which incorporates the Globalstar GSP-2900 fixed satellite phone. All components are included for quick and easy deployment; all contained in a watertight Pelican 1620 case with wheels for ease of shipping and transport.

The electronic equipment is housed in a NEMA enclosure. 55' of coax cable is included, which should satisfy most installation requirements. All connections pre-wired to N-type bulkhead connectors on the outside of the case and antenna mounting bracket. The connections are color coded for transmit and receive lines. The kit also includes a corded and cordless handset system. The corded handset can be used alone with no power requirements, though with the cordless handset, power is required. The RS232 data port offers e-mail and internet connectivity at real-world speeds when using Globalstar Express Data.

The unit contains a battery backup, which when charged provides 24 hours standby and 3.5 hours of talk time. It can be deployed in an area without power in an emergency situation.

This complete plug and play package does not require technical expertise to install. It is cost-effective alternative to the basic ST-2900 unit as it saves installation time and material.

## SPECIFICATIONS

COMPONENT	OPERATIONAL
Temperature	--30 to +60°C (-22 to +140°F), humidity 5% - 95%
Dimensions (NEMA Enclosure)	16"x13"x8" Nema Case For Indoor Installation
Weight	NEMA CASE 11.1 kg (23.6 lbs ) TOTAL KIT 23.6 lbs
Voice Mode	Globalstar Satellite Mode (CDMA)
Power Requirements	110/220 VAC
RF Power Output	2 watt maximum (+33 dBm)
Warranty	1 Year Warranty

## KEY FEATURES

- **Globalstar Certified Satellite Unit**
- **Airtime As Low As \$0.14/Min.**
- **55' Coax Cabling Included**
- **Omnidirectional Antenna With Pole Mount Or U-Bolt Mount**
- **Cordless/Corded Phone Bundle**
- **RJ11 Phone Jack**
- **PABX Connectivity**
- **Battery Backup**
- **N-Type Coax Connections**
- **RS232 Data Port**
- **25' DB9 RS232 Cable Included**
- **Data Installation CD**
- **120/240 VAC Input**
- **Pelican 1620 Case Fits All**
